CLAREMONT

Square Footage: 2418

The entry foyer provides an intriguing glimpse of a 2-story family room set off by impressive columns and corner fireplace. The open concept kitchen and gathering room work well for families while the flex space at the front of the home offers a retreat from the crowd – it can become anything from a place for kids' toys to a relaxation area for adults.

The Drop Zone, a Kay Builders innovation, is positioned near the garage entry, to provide a convenient space for keys, coats, the mail and charging your phone.

Located off a mid-level landing, this master suite offers the best of both worlds, large separate spaces yet easily accessible to both the living level and 3 additional bedrooms. By dedicating the entire 2nd floor to the 3 additional bedrooms and bath, all bedrooms much more sizeable than average. An innovative design, this well planned home puts family comfort and privacy first.

Mid-Level Master
