Square Footage: 2,155

...The 2-story foyer and vaulted living room present an impressive first view while the turned stairway leads directly to a bright, inviting family room. An open extended kitchen, adjacent to the family room, features lots of cabinetry, a pantry plus separate, spacious breakfast table area. And for those who so choose, the positioning of the dining and living rooms make them easily adaptable to informal use such as a supersized country kitchen and study.

Space is efficiently well proportioned on the 2nd floor where double doors lead to a master suite with a huge walk-in closet and classy master bath. Two additional bedrooms, hall bath and cost effective 4th bedroom option, plus the ability to easily convert areas from formal to informal enhance the Emperor's appeal.

All sizes and dimensions are approximate. Window sizes, shapes and locations may vary. In the interest of continued improvement, Kay Builders reserves the right to make modifications including, but not limited to features, designs, facades and pricing. Actual facades may vary slightly. Contract and specifications take precedence over the brochure.
