

**FAIRFIELD**

# FAIRFIELD

2,212 sq. ft.

With its hipped roof, triple circle top windows, an angled bay, recessed front entry and a choice of masonry or stucco façades, the Fairfield is as current as the newest trends...

Upon entering the home, the eye is drawn to elegant 14' high ceilings in the oversized dining room and spacious family room. Located off the foyer, the parlor, with 2 suggested placements for optional double doors, is perfectly positioned either to host guests or to serve as a study for the master suite. The informal portion of the home features a kitchen with angled double bowl sink, snack counter and cathedral ceiling breakfast area adjacent to the family room—ideal for small gatherings. And for larger groups, the flow between dining room and family room works wonders.

2 additional bedrooms, located on either side of the 2nd bath, are at the opposite end of the home from the master suite, creating a separate wing and providing much welcomed privacy.
